WILSON URGES NATION TO FURNISH 2,000,000 MEN TO ARMY

Yard and the Navy Department. Destroyer flotillas are at sea in the vicinity and presumably they heard the wireless warning which swept the coast line and set out to locate the mysterious craft. Meanwhile shipping was warned not to venture out.

Soon afterward a report of a raider off the Virginia Capes came from Hampton Roads, where shipping also was held in port while armed craft went to sea to investigate.

Navy officials expect many reports of raiders while the seacoast is at high tension, and many such probably will turn out to be unoffending tramps. No precautions are being overlooked, however, and the naval patrol is on the alert to examine all strange ships,

CONGRESS WILL VOTE SOON BILLIONS TO CARRY ON WAR

By Samuel M. Williams.

(Special Staff Correspondent of The Evening World.)

WASHINGTON, April 7,-War orders for active service, mobilizations, preparedness, protection and detense followed each other in swift succession to-day from the executive departments of Government. Most of them were secret, and only their results will become apparent. Although no enemy has yet approached our shores, the Government is proceeding with preparations unprecedented in the nation's history.

The war in Europe has taught America's experts many valuable and Turkey have also decided to lessons. The greatest of these is knowledge how to avoid blunders and break off relations with the United delays. The country may be, for the moment, deficient in numbers of trained men under arms, of fleets of ships and stores of munitions, but Washington and American interests it is miles ahead of Great Britain's state on the day she entered the conflict.
